

VALUE ADDED CERTIFICATE COURSES

GJIMT offers a wide array of value-added courses designed to enhance students' holistic perspectives and deepen their understanding of current industry challenges. These cutting-edge courses aim to equip students with the latest technical knowledge and employability skills, preparing them to meet the demands of a dynamic business environment. The courses are developed by the institute's in-house faculty experts, with input from employers, alumni, and industry professionals gathered and analyzed to ensure the selection and design of a relevant, interdisciplinary course curriculum.

OBJECTIVES OF THE VALUE-ADDED COURSES:

- > To provide students an understanding of the expectations of Industry.
- > To improve employability skills of students.
- > To bridge the skill gaps and make students industry ready .
- > To provide an opportunity to students develop their inter-disciplinary skills.
