

Programme: Master of Computer Applications

Semester IV

PGCA1976

Machine Learning and Data Analytics using Python

Course Outcomes (COs)

CO#	At the end of the course, the student will be able to:
CO1	Learn Machine Learning concepts
CO2	Understand the difference between supervised and unsupervised learning
CO3	Learn clustering and classification algorithms
CO4	Analyse data using Python Numpy, Panda Libraries
CO5	Visualize data using matplotlib library of Python
