Programme: Bachelor of Computer Applications

Semester II

UGCA1908

Computer System Architecture

Course Outcomes (COs)

CO#	At the end of the course, the student will be able to:
CO1	Identify the various internal and peripheral components of computer system
CO2	Categorize different number system.
CO3	Outline the role of various components of computer system.
CO4	Identify micro-operations.
CO5	Comment on the design of Combinational & Sequential circuits
